Major capital asset additions during the fiscal year included the following:

- An ambulance was purchased under governmental activities
- Construction in process for governmental activities and business type activities increased approximately \$1,237,000. This mostly can be attributed to energy improvement project.

Additional information on the Township's capital assets can be found in the notes of this report.

**Long - term debt.** At the end of the current fiscal year, the primary government of the Township had total debt outstanding of \$25,910,462.

#### Delhi Charter Township's Outstanding Debt

	Gov	<b>Governmental Activities</b>			Business Ty	pe A	ctivities	Total			
	201	16	2015		2016		2015		2016		2015
General obligation bonds	\$ 1,3	\$14,586 \$	1,466,341	\$	4,010,175	\$	4,442,456	\$	5,324,761	\$	5,908,797
Revenue bonds		-	-		13,320,000		14,145,000		13,320,000		14,145,000
Other long-term debt	5,79	95,366	2,848,285		1,470,335		_		7,265,701		2,848,285
Total	\$ 7,10	09,952 \$	4,314,626	\$	18,800,510	\$	18,587,456	\$	25,910,462	\$	22,902,082

The Township's total bonded debt decreased by a net of \$1,409,036, to \$18,644,761 during 2016.

The Township has an "AA" rating, upgraded by Standard & Poor's in July 2014. This is one of the highest ratings and reflects a strong capacity to repay the debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total state assessed value. The current debt limitation for the Township is \$79,002,665, which is significantly in excess of the Township's and Downtown Development Authority's outstanding general obligation debt of \$19,498,203.

Additional information on the Township's long-term debt can be found in the notes of this report.

#### **Economic Factors and Next Year's Budgets and Rates**

The following factors were considered in preparing the Township's budget for the 2017 fiscal year:

- The emphasis on reducing costs while providing quality services to our citizens continued to be a major consideration in the 2017 budget development.
- Contain health care costs by continuation of the Township's high deductible health plan while encouraging employee contributions into their HSAs.
- > Continue to pursue grant opportunities for capital purchases and infrastructure investments.
- Continue to assess staffing needs whenever a vacancy occurs, while continuing to cross train staff for organizational effectiveness & efficiency.
- As a result of the 2013 sewer rate study recommendation, rates were increased by 3.7% in 2017.

During the current fiscal year, total fund balance in the General Fund increased to \$8,773,059. The Township has projected expenditures to exceed revenues in 2017 by \$3,649,070. Our goal is to maintain a fund balance averaging between three and six months of operating expenditures.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Township's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Township Manager's Office, 2074 Aurelius Road, Holt, MI 48842.

# CHARTER TOWNSHIP OF DELHI RECONCILIATION OF FUND BALANCES ON THE BALANCE SHEET FOR GOVERNMENTAL FUNDS TO NET POSITION OF GOVERNMENTAL ACTIVITIES ON THE STATEMENT OF NET POSITION

**DECEMBER 31, 2016** 

#### Total governmental fund balances

9.191.706

Amounts reported for governmental activities in the statement of net position are different because:

Deferred outflows of resources - related to deferred charge on refunding  $% \left( 1\right) =\left( 1\right) \left( 1\right) \left$ 

4,995

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds:

Capital assets not being depreciated \$ 3,407,217 Capital assets being depreciated, net 14,080,310

17,487,527

Because the focus of governmental funds is on short-term

financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain

receivables) are offset by unavailable revenues in the government

funds, and thus are not included in fund balance:

Unavailable revenue expected to be collected after March 1, 2017

451,046

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported

in the funds:

General obligation debt (6,702,058) Compensated absences (407,894) Accrued interest (20,427)

Net position of governmental activities

\$ 20,004,895

#### CHARTER TOWNSHIP OF DELHI STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS YEAR ENDED DECEMBER 31, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	1,582,148
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:		
Capital outlay		2,328,371
Depreciation expense		(872,527)
Realized loss on disposal of capital assets		(3,296)
Repayments of principal on long-term debt is an expenditure in the governmental funds, but not in the statement of activities (where it is a reduction of liabilities):		
Proceeds from issuance of bonds		(414,585)
Proceeds from issuance of general assessment obligations		(527,757)
Proceeds from installment purchase agreement	(	(2,613,930)
Deferred charge on refunding		4,995
Payments to escrow agent		409,341
Reductions of principal on long-term debt		393,011
Amortization of bond discounts		(5,689)
Revenue is recorded on the accrual method in the statement of activities; in the		
governmental funds it is recorded on the modified accrual method and not considered available:		
Accrued revenue beginning of the year - primarily special assessments due in the future		(382,366)
Accrued revenue end of the year - primarily special assessments due in the future		451,046
Some expenses reported in the statement of activities do not require the use of current		
financial resources and, therefore, are not reported as expenditures in the governmental funds:  Accrued interest on bonds is recorded in the statement of activities		
when incurred; it is not recorded in governmental funds until it is paid:		
Accrued interest payable beginning of the year		9,005
Accrued interest payable end of the year		(20,427)
Compensated absences are reported on the accrual method in the statement of activities,		
and recorded as an expenditure when financial resources are used in the governmental funds:		
Accrued compensated absences beginning of the year		372,177
Accrued compensated absences end of the year		(407,894)
Change in net position of governmental activities	\$	301,623

NOTES TO THE FINANCIAL STATEMENTS

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Description of Government wide Financial Statements

The government wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type* activities, which rely to a significant extent on fees and charges for support. Likewise, the *primary* government is reported separately from its legally separate *component units* for which the primary government is financially accountable.

# **B.** Reporting Entity

The Charter Township of Delhi (Township) is incorporated under the provisions of Act 359, P.A. 1947 as amended (Charter Township Act) and is located in mid-Michigan. The Township is governed by the Charter Township of Delhi Board of Trustees (the "Board"), which has responsibility and control over all activities related to the Township. The Township provides the following services as authorized by its charter; public safety (police and fire), public improvements (sewers), planning and zoning, recreation and general administrative services.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Each discretely presented component units is reported in a separate column in the government wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Discretely Presented Component Units

The following is a description of the discretely presented component units.

The Downtown Development Authority of Charter Township of Delhi is organized pursuant Charter Township of Delhi Ordinance No. 80 and Act 197 of the Public Acts of 1975 of the State of Michigan, as amended. The primary purpose of the Authority is to provide for the ongoing maintenance, promotion, security and continued operation of the downtown district. A tax increment financing district was established to finance these activities. The members of the Board of Directors of the Authority are appointed by the Township Board. No separate audit report is issued for this Authority.

The Delhi Township Local Site Remediation Revolving fund is organized pursuant to Section 8 of the State of Michigan's Brownfield Redevelopment Financing Act (Public Act 381 of 1996, as amended by Public Act 145 of 2000 and Public Act 502 of 2012). The primary purpose of the Fund is to clean up environmentally challenged properties in the Township and prepare them for desirable and productive re-uses. Financing of these activities will consist of monies appropriated or otherwise made available from public or private sources. The members of the Board of Directors of the Fund are appointed by the Township Board. No separate audit report is issued for this Fund.

# **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

## **B.** Reporting Entity (Concluded)

The Downtown Development Authority and the Local Site Remediation Revolving fund are considered component units of Charter Township of Delhi because the Township appoints the Authorities' Board members and has the ability to significantly influence the operations of the Authorities.

#### C. Basis of Presentation - Government wide Financial Statements

While separate government wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government wide financial statements.

As discussed earlier, the Township has two discretely presented component units. The Downtown Development Authority of the Charter Township of Delhi is considered to be a major component unit, while the Local Site Remediation Revolving fund is not, nevertheless they are shown in separate columns in the government wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government wide financial statements. Possible exceptions to this general rule are charges for services between the sewer fund and other functions of government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

#### D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the Township's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *fire fund* is a special revenue fund established to provide for the safety of the citizens of the Township by reducing the impact of community emergencies through education, prevention and service.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **D.** Basis of Presentation - Fund Financial Statements (Continued)

The *police fund* is a special revenue fund established to provide for the safety and welfare of the residents of the Township through a contract with the Ingham County Sheriff's Office.

The government reports the following major proprietary funds:

Sewer enterprise fund (Sewer Disposal System). This fund accounts for the activities of the Township's sewage disposal and sewage treatment systems that are financed primarily by user charges for those services.

Additionally, the government reports the following nonmajor fund types:

Special revenue funds - The *special revenue funds* account for revenue sources that are legally restricted for specific purpose (not including expendable trusts or major capital projects). The Township's nonmajor special revenue funds include the water improvement and the fire equipment, training and apparatus funds.

Capital projects fund - the *capital project fund* accounts for the receipt of debt proceeds for the construction of major capital projects.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government wide financial statements because the resources of those funds are *not* available to support the Township's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Additionally, the government reports as fiduciary funds, the other post-employment benefit trust fund, the private purpose trust fund, and two agency funds.

The *other post-employment benefit trust fund* accounts for the accumulated resources related to the health benefit payments to qualified retirees.

The *private purpose trust fund* accounts for the principal received and related interest of the cemetery.

The *agency funds* are the tax collection fund and the trust and agency fund. The tax collection fund collects and distributes taxes to other governments and the trust and agency fund holds funds like escrows and retainage for others.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## **D.** Basis of Presentation - Fund Financial Statements (Concluded)

During the course of operations the Township has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

#### E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## E. Measurement Focus and Basis of Accounting (Concluded)

The governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary and private-purpose trust funds are reported using the *economic resources* measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

## F. Budgetary Information

#### 1. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund and special revenue fund. The capital projects fund is appropriated on a project-length basis. Other funds do not have appropriated budgets.

The appropriate budget is prepared by fund and department. The Township's manager may make transfers of appropriations within a department not to exceed \$10,000. Amounts over \$10,000 requires approval of the board. Transfers of appropriations between departments are required to be reported to the Board at the next scheduled meeting. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## F. Budgetary Information (Concluded)

#### 1. Budgetary Basis of Accounting (Concluded)

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). The Township does not utilize encumbrance accounting.

The budget was amended during the year with supplemental appropriations. The budget was approved prior to December 31, 2016. The Township does not consider the amendments to be significant. Violations, if any, are noted in the required supplementary information sections.

#### G. Assets, Liabilities, Deferred Outflows/Inflows, and Net Position or Fund Balance

#### 1. Cash, Cash Equivalents and Investments

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. In addition, the statement of cash flows includes both restricted and unrestricted cash and cash equivalents. Investments include instruments allowed by state statute subsequently described. Investments are carried at fair value.

The Township utilizes various pooled cash accounts for approximately 10 funds. The Township's pooled cash consists of a common checking account.

The Township's pooled cash accounts are utilized by the General Fund, Special Revenue Funds, the Sewer Fund, Trust and Agency Funds, and the component unit funds. Each funds' portion of these pooled accounts is included in the cash and cash equivalent caption in the applicable balance sheet/statement of net position.

State statutes authorized the Township to invest in bonds, securities, and other direct and certain indirect obligations of the U.S. Treasury, which include securities issued or guaranteed by the Government National Mortgage Association; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; and in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The Township is also authorized to invest in U.S. government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# G. Assets, Liabilities, Deferred Outflows/Inflows, and Net Position or Fund Balance (Continued)

#### 1. Cash, Cash Equivalents and Investments (Concluded)

Investments are stated at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have established market values are reported at estimated fair value. Cash deposits are reported at cost.

# 2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" and are all current. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government wide financial statements as "internal balances."

Accounts receivable in the proprietary funds do not have an allowance for uncollectibles. Delinquent amounts are ultimately added to the tax roll and become a lien on the property and as a consequence, no allowance is deemed necessary. No other significant allowances are deemed necessary.

#### 3. Prepaids

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government wide and fund financial statements.

#### 4. Restricted Assets

Certain proceeds of enterprise funds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants, Michigan law, or township ordinance. Unspent financing proceeds have been restricted for the governmental activities.

## 5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure (sidewalks and usage rights), are reported in the applicable governmental or business-type activities columns in the government wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# G. Assets, Liabilities, Deferred Outflows/Inflows, and Net Position or Fund Balance (Continued)

# 5. Capital Assets (Concluded)

Major outlays for capital assets and improvement are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government, as well as the component units, is depreciated using the straight-line method over the following estimated useful live:

Assets	Years
Sewage mains, outfall lines and infrastructure	40
Buildings	40
Building improvements	20
Land improvements	15
Machinery and equipment	5 - 10
Computer equipment	3 - 10
Furniture and office equipment	10
Vehicles	5 - 7

## **6.** Other Postemployment Benefit Costs

The Township offers retiree healthcare benefits to retirees. The Township receives an actuarial valuation to compute the annual required contribution (ARC) necessary to fund the obligation over the remaining amortization period. In the governmental funds, OPEB costs are recognized as contributions are made. For the government wide statements and proprietary funds, the Township reports the full accrual cost equal to the current year required contribution, adjusted for interest and "adjustment to the ARC" on the beginning of year underpaid amount, if any.

#### 7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The Township has one item that qualifies for reporting in this category. It is the deferred change on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# G. Assets, Liabilities, Deferred Outflows/Inflows, and Net Position or Fund Balance (Continued)

## 7. Deferred Outflows/Inflows of Resources (Concluded)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The Township has three types of items, which arise only under a modified accrual basis of accounting that qualifies for reporting in this category. The Township reports unavailable revenues from property taxes, special assessments and ambulance fees. These amounts are unavailable and recognized as an inflow of resources in the period that the amounts become available. On the statement of net position the Township reports unavailable revenues from property taxes. These amounts are property taxes levied for the next fiscal year.

#### 8. Net Position Flow Assumption

Sometimes the Township will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Township's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

#### 9. Fund Balance Flow Assumptions

Sometimes the Township will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Township's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### 10. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Township itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# G. Assets, Liabilities, Deferred Outflows/Inflows, and Net Position or Fund Balance (Concluded)

## 10. Fund Balance Policies (Concluded)

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Township's highest level of decision-making authority. The board of trustees is the highest level of decision-making authority for the Township that can, by adoption of a board action prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the board action remains in place until a similar action is taken (the adoption of another board action) to remove or revise the limitation.

Amounts, if any, in the assigned fund balance classification are intended to be used by the Township for specific purposes but do not meet the criteria to be classified as committed. The board of trustees may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

In the general fund, the goal of the Township Board shall be to maintain a minimum unassigned fund balance of no less than 15% of General Fund expenditures. For purposes of this calculation, "expenditures" will be the annual budgeted expenditures amount less non-recurring capital expenditures. If unassigned fund balance levels fall below 15% of expenditures, the General Fund budget for the following year will be adjusted to restore fund balance to the 15% level.

#### 11. Comparative Data/Reclassifications

Comparative total data for the prior year have been presented only for certain individual funds in the additional supplementary information in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

#### 12. Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates are primarily related to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## H. Revenues and Expenditures/Expenses

#### 1. Program Revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

#### 2. Property Taxes

Property taxes become an enforceable lien on the property as of December 1. Taxes are levied on December 1 and are due in February of the following year. The Township bills and collects its own property taxes and also taxes for the county, intermediate school district, community college and school districts. All tax collections are accounted for in the tax collection fund, an agency fund. Township tax revenues are recognized in the fiscal year following the December 1 levy date. Property taxes levied for the ensuing year's revenue are included in taxes receivable and deferred inflow of resources.

The Township is permitted by state statute to levy taxes up to \$5.00 per \$1,000 of taxable valuation for general government services other than the payment of principal and interest on long-term debt and in unlimited amounts for the payment of principal and interest on long-term debt. In 2016 the Township levied \$4.3094 per \$1,000 for general governmental purposes, \$1.5000 per \$1,000 for Police services, and \$1.5000 per \$1,000 for Fire and Emergency Medical Services on the December 31, 2015 levy (recognized as revenue in 2016) for a total of \$7.3094 per \$1,000.

The Downtown Development and Local Site Remediation Revolving fund, which are component units, also receive property tax revenue from the July 1 and December 1 tax levies. The December 1 tax revenues are recognized in the following fiscal year. The July 1 tax revenues are recognized in the year in which they are levied.

#### 3. Compensated Absences

It is the Township's policy to permit employees to accumulate a limited amount of earned but unused vacation and sick leave, which will be paid to employees upon separation from the Township. All vacation pay and partial sick leave is accrued when earned in the government wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The liability for compensated absences for the proprietary fund financial statements is included in accrued liabilities and is considered current since it is anticipated the accumulated paid time off will be used during the subsequent year.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

## H. Revenues and Expenditures/Expenses (Concluded)

#### 4. Long-term Obligations

In the government wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as expenditures in the year in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## 5. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer fund is charges to customers for sales and services. The fund also recognized as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## NOTE 2 - DEPOSITS AND INVESTMENTS

As of December 31, 2016, the Township had the following investments:

Investment Type	Fair value	Weighted average maturity (years)	Standard & Poor's rating	%
U.S. Agency:				
Federal Home Loan	\$ 107,741	0.4833	AA+	3.0%
Municipal bonds:				
Flat Rock Community Schools	109,817	1.3122	AA1 - Moody	3.0%
Riverview	121,212	2.7945	A+	3.4%
Reeths Puffer Public Schools	65,175	2.2977	AA1 - Moody	1.8%
Kalamazoo Public Schools	125,106	1.3122	AA-	3.5%
Pickney Community Schools	99,886	2.2968	AA-	2.8%
Whitmore Lake Public Schools	120,778	2.2977	AA-	3.3%
MI Class	2,756,065	0.0027	AAA	76.3%
Certificates of Deposit:				
Wells Fargo Sioux	103,374	4.4334	N/A	2.9%
Total fair value	\$ 3,609,154	=		100.0%
Portfolio weighted average maturity		1.9145		

1 day maturity equals 0.0027, one year equals 1.00

The Township voluntarily invests excess funds in pooled short-term investment funds which included money market funds. One of the pooled investment funds utilized by the Township is MI CLASS. MI CLASS is an external pooled investment fund of "qualified" investments for Michigan townships. MI CLASS is not regulated nor is it registered with the SEC. MI CLASS reports as of December 31, 2016 the fair value of the Township's investments is the same as the value of the pool shares.

#### **NOTE 2 - DEPOSITS AND INVESTMENTS (Continued)**

**Interest rate risk.** In accordance with its investment policy, the Township will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the Township's cash requirements.

**Credit risk.** State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs).

Concentration of credit risk. The Township will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the Township's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

**Custodial credit risk - deposits.** In the case of deposits, this is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. As of December 31, 2016, \$30,619,565 of the Township's bank balance of \$32,220,171 was exposed to custodial credit risk because it was uninsured. Certificate of deposits and money market accounts are included in the above totals. The book balance reported as deposits and cash on hand on the financial statements as of December 31, 2016 was \$32,914,841.

**Custodial credit risk - investments.** For an investment, this is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Township will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the Township will do business.

#### **NOTE 2 - DEPOSITS AND INVESTMENTS (Continued)**

**Fair value measurement.** The Township is required to disclose amounts within a framework established for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Quoted prices in active markets for identical securities.
- Level 2: Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include prices for similar securities, interest rates, prepayment speeds, credit risk and others.
- Level 3: Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable or deemed less relevant, unobservable inputs may be used. Unobservable inputs reflect the District's own assumptions about the factors market participants would use in pricing an investment and would be based on the best information available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Township reports their investments according to the following levels:

	Level 2	
U.S. Agency:		
Federal Home Loan	\$	107,741
Municipal bonds:		
Flat Rock Community Schools		109,817
Riverview		121,212

	\$ 36,523,995

## Other post-employment benefits

The Charter Township of Delhi's Other Post Employment Benefit Trust Fund (the "trust fund" or the "System") investments are maintained separately from the Township's pooled cash and investments, and are subject to separate investment policies and state statues. Accordingly, the required disclosure for the System's deposits and investments are presented separately.

**Deposits** - The System does not maintain any checking or other demand/time deposit accounts.

**Investments** - The Michigan Public Employees Retirement Systems' Investment Act, Public Act 314 of 1985, as amended, authorizes the System to invest in stocks, government and corporate securities, mortgages, real estate, and various other investment instruments, subject to certain limitations. The System has the responsibility and authority to oversee the investment portfolio. A professional investment manager is contracted to assist in managing the System's assets. All investment decisions are subject to Michigan law and the investment policy established by the System.

# NOTE 2 - DEPOSITS AND INVESTMENTS (Concluded)

The System's investments are held with an insurance company administered trust fund. Following is a summary of the System's investments as of December 31, 2016:

## NOTE 5 - INTERFUND RECEIVABLES, PAYABLE AND TRANSFERS

The composition of interfund transfers for the year ended December 31, 2016 is as follows:

	Gei	neral Fund	F	Fire Fund	_ P	olice Fund	То	tal transfers out
Transfer out: General Fund Capital Projects Fund	\$	216,961	\$	992,921	\$	1,473,133	\$	2,466,054 216,961
	\$	216,961	\$	992,921	\$	1,473,133	\$	2,683,015

Transfers are used to move funds for purchase of capital outlay and to move unrestricted general fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations.

## NOTE 6 - LONG-TERM DEBT

#### **General Obligation Bonds**

The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as 5 to 30 year serial bonds.

\$414,585, 2016 Refunding Bonds, for the purpose of refunding the 2011	
LTGO bonds. The Township issued bonds totaling \$2,490,000 of which	
16.65% (\$414,585) was for water improvement (governmental activities) and	
83.35% (\$2,075,415) was for sanitary sewer (business type activities). The	
bonds are due in annual installments of \$64,935 to \$73,260 through 2022,	
interest at 1.65%.	\$ 414,586
\$1,200,000, 2013 general obligation bonds to finance Township costs of constructing of a portion of a non-motorized pathway/trail, due in annual installments of \$100,0000 to \$125,000 through 2024, interest at 2.09%. The Downtown Development Authority has pledged its revenue to the Township	000 000
for the principal and interest payments.	 900,000
	\$ 1 314 586

#### **NOTE 6 - LONG-TERM DEBT (Continued)**

#### Other Long-term Debt

The government is assessed for drains at large by Ingham County. The assessment cover the Township's share of installation and flowage rights for drains. General assessments outstanding at year end are as follows:

Purpose	Amount	extend through	Interest Rate
Governmental activities	\$ 2,668,771	2033	Imputed at 4%

# <u>Installment Purchase Agreement</u>

The Township entered into an installment purchase agreement related to the energy improvement project. The Township allocated 64% to the governmental activities and 36% to the sanitary sewer (business type activities). This obligation is summarized as follows:

Purpose	Amount	extend through	Interest Rate
Governmental activities	\$ 2,613,930	2031	3.24%

The Township has entered into an installment purchase agreement to purchase property. This obligation is summarized as follows:

Purpose	Amount	Fiscal year Due	Interest Rate		
Governmental activities	\$ 100,166	2019	3.49%		

# Capital lease

The government has entered into a lease agreement as lessee for financing the acquisition of a copier valued at \$9,480. The copier has a five year estimated useful life. This year, \$1,896 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date.

	Fiscal year obligations					
Purpose	A	mount	extend through	Interest Rate		
Governmental activities	\$	4,605	2019	11.317%		

# **NOTE 6 - LONG-TERM DEBT (Continued)**

# **Enterprise Fund**

# General Obligation Bonds Payable

General Congation Bonds Layable	
\$1,585,000, 2014 Refunding Bonds (Sanitary Sewer general obligation bonds), for the purpose of refunding 2003 Sanitary Sewer general obligations bonds, due in annual installments of \$150,000 to \$180,000 through 2024, interest at 2.35%.  \$2,075,415, 2016 Refunding Bonds, for the purpose of refunding the 2011	\$ 1,305,000
LTGO bonds. The Township issued bonds totaling \$2,490,000 of which 16.65% (\$414,585) was for water improvement (governmental activities) and 83.35% (\$2,075,415) was for sanitary sewer (business type activities). The

On June 9, 2016, the Township issued general obligations bonds of \$2,490,000 with an interest rate of 1.65% to advance refund a portion of the Township's 2011 bonds with interest rates of 2.10% to 3.65%. The bonds mature at various times through September 1, 2022. After paying issuance costs of \$31,494, the net proceeds were \$2,458,506. The net proceeds from the issuance of the refunding bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the bonds are paid in full. The advance refunding met the requirements of an in-substance debt defeasance and the term bonds were removed from the Township's government-wide financial statements. The Township issued one bond issue for \$2,490,000 of which 83.35% (\$2,075,415) was for sanitary sewer (business type activities) and 16.65% (\$414,585) was for water improvement (governmental activities). As a result of the advance refunding, the Township reduced its total debt requirements by \$149,327, creating an economic gain (difference between the present value of the debt service payment on the old and new debt) of \$104,809.

#### **NOTE 6 - LONG-TERM DEBT (Concluded)**

Additionally, on July 19, 2016, the Township issued general obligation bonds of \$5,000,000 with an interest rate of 1.60% to advance refund the Township's 2008 bonds with interest rates of 4.00% to 4.125%. The bonds mature at various times through November 1, 2024. After paying issuance costs of \$45,182, the net proceeds were \$4,954,818. The net proceeds from the issuance of the refunding bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the bonds are paid in full. The advance refunding met the requirements of an in-substance debt defeasance and the term bonds were removed from the Township's government-wide financial statements. The Township issued one bond issue for \$5,000,000, of which \$4,498,998 was for downtown development (DDA component unit) and \$501,002 was for sanitary sewer. The bond refunded will be paid on until 2018, with payments for the 2016 Refunding bonds beginning in 2019. As a result of the advance refunding, the Township reduced its total debt requirements by \$372,670, creating an economic gain (difference between the present value of the debt service payment on the old and new debt) of \$240,125.

#### Advance refunding

The Township defeased certain bonds by placing the proceeds of new bonds in irrevocable trusts for the purpose of generating resources for all future debt service payments on the refunded debt. As a result, the refunded bonds are considered to be defeased and the trust fund assets and related liabilities have been removed from the statement of net position. As of the year ended December 31, 2016, \$10,940,000 of bonds outstanding from a prior advance refunding was considered defeased.

#### Debt service commitment

The Downtown Development Authority has commitments to pay debt on the 2013 capital improvement bonds. The debt issues are the obligations of the Township that the DDA has agreed through the action of its Board of Directors to repay as the principal and interest become due.

As of December 31, 2016, these commitments totaled \$988,825 and are payable through 2024, with \$118,810 due in the next year.

#### NOTE 7 - CONTRIBUTED CAPITAL

During the current year, the Township received a capital contribution for their governmental activities. This capital was used to purchase thermal cameras for public safety. The contribution amounted to \$10,000. Currently, accounting principles generally accepted in the United States of America calls for this capital contribution to be recorded as revenue at the governmental activities level.

Additionally, during the current year, the Township received a capital contribution for their business type activities. This capital was recorded for the donation of the rights to Prestwick sewer. The contribution amounted to \$185,508. Currently, accounting principles generally accepted in the United States of America calls for this capital contribution to be recorded as revenue at the governmental activities level.

#### **NOTE 8 - PENSION PLANS**

The Township provides pension benefits for all of its full-time employees through a defined contribution plan called the Defined Contribution Pension Plan for Governmental Employees. The Plan is administered by an outside party. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate upon completion of three months of service. The Township contributes an amount equal to 10% of the employee's base annual compensation, plus the Township can match up to 2.50% of the employee's contribution.

The Township's contribution for each employee (and interest attributable to these contributions) is fully vested after two years' service. Township contributions and attributable interest forfeited by employees who leave employment prior to full vesting are used to reduce the Township's current period contribution requirements.

Plan provisions and contribution requirements are established and may be amended by the Township Board.

The Township's total payroll in 2016 was \$4,477,245. Contributions were calculated using the base salary amount of \$3,844,092. The Township made the required 10% contribution total \$384,409.

#### **NOTE 9 - DEFERRED COMPENSATION PLANS**

The Township offers two deferred compensation plans created in accordance with Internal Revenue Code Section 457; one designed for full-time employees, and the second available only to part-time employees. The plans permit employees to defer a portion of their salary until future years. For the Plan covering part-time employees, the Township contributes 3% of gross pay to the plan on behalf of all participating employees. The Township made contributions to the plans totaling \$4,139. The deferred compensation is only available to the employees upon retirement, termination, becoming permanently disabled, or death.

#### NOTE 10 - OTHER POST EMPLOYMENT BENEFITS

In addition to benefits described in Note 8 and 9, the Township provides both health and life insurance benefits for retired employees (the "Plan"). The Plan provides other post-employment benefits (OPEB) for all of its full time employees through a single-employer defined benefit plan. Based on the plan, the Township is required to have an actuarial calculation every three years. The information provided is the results of the most resent actuarial valuation with a measurement date of August 31, 2013.

Plan Description. The purpose of the Plan is to provide health and life insurance benefits to all employees who retire from the Township with a minimum ten years of service based on the schedule of shared participation rates. The Plan is maintained as a trust fund in the Charter Township of Delhi's financial statements. The Township Board of Trustees has the authority to establish and amend benefit provisions.

Funding Policy. The contribution requirements of plan members and the Township are established and may be amended by the Township. Retirees receiving benefits contribute to the cost of the premiums based on the number of years of service. The Township's share of costs ranges from 75% to 100% of the monthly premiums, based on years of service. The Township will provide 100% of life insurance. The Township is also required to contribute at a rate that is based on an actuarial valuation that is prepared in accordance within certain parameters, in addition to a pay-as-you-go basis for retiree health care cost. The Township contributed \$125,475 for their portion of shared costs with retiree's premiums. At August 31, 2013, the date of the latest actuarial valuation, participants in the Plan consisted of:

Retirees and beneficiaries receiving benefits	13
Active employees	58
Total	71

Funding progress. For the year ended December 31, 2016 the Township has estimated the cost of providing retiree health care benefits through an actuarial valuation as of August 31, 2013. The valuation computes an annual required contribution, which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. Based on that valuation, the Township contributed \$611,521 in the year ended December 31, 2016 which represents 100% of the annual required contribution. No amounts were contributed on behalf of the Downtown Development Authority. The value of the Plan's assets at the end of December 31, 2016 was \$3,399,746.

Annual required contribution (recommended)	\$ 611,521
Amounts contributed:	
Payments of current expenses	 (611,521)
Change in net OPEB obligation	-
OPEB obligation:	
Beginning of year	_
End of year	\$ _

#### NOTE 10 - OTHER POST EMPLOYMENT BENEFITS (Concluded)

The annual OPEB costs, the percentage contributed to the Plan, and the net OPEB obligation for the current and preceding two years is as follows:

	Percentage of				
Year ending	Anı	nual OPEB	annual OPEB	Net OPEB	
December 31,	cost		cost contributed	obligation	
2014	\$	629,129	100.0%	\$	_
2015		618,464	100.0%		-
2016		611,521	100.0%		-

The funding progress of the Plan as of the most recent valuation date of August 31, 2013, is as follows:

Actuarial accrued liability (AAL)	\$ 6,896,399
Actuarial value of plan assets - 8/31/2013	 1,402,990
Unfunded actuarial accrued liability (UAAL)	\$ 5,493,409
Funded ratio (actuarial value of plan assets/AAL)	20.3%
Covered payroll (active plan members)	\$ 4,227,000
UAAL as a percentage of covered payroll	130.0%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the August 31, 2013, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions include a 7 percent investment rate of return and an annual healthcare cost trend rate of 9 percent initially, reduced by decrements to an ultimate rate of 4 percent after ten years. Both rates include a 4 percent inflation assumption. The actuarial value of the assets was determined using the fair market value at the time of measurement. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at August 31, 2013 was twenty-seven years.

#### NOTE 11 - COMMITMENTS AND CONTINGENCIES

The Township and its component units are exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Township and its component units carry commercial insurance to cover any losses that may result from the above described activities. No settlements have incurred in excess of coverage in 2016 or any of the prior three years.

Amounts received or receivable from grantor agencies are subject to audit and potential adjustment by federal and state grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

#### NOTE 12 - NATURE AND PURPOSE OF RESTRICTIONS OF NET POSITION

Restrictions in the enterprise fund represent amounts set aside for debt retirement and capital improvement. The amount of the restriction is based on the excess of restricted investments over related liabilities.

#### **NOTE 13 - BUILDING DEPARTMENT**

The Township records the results of building department operations in the general fund. In accordance with Michigan Public Act 245 of 1999, the Township is required to maintain an accounting system that separately accumulates revenues and expenditures related to the building department function. For the year ended December 31, 2016, activity in the building department is as follows:

Building department deficit at January 1, 2016	\$ (299,538)
Revenues:	
Trade permits	702,877
Expenditures:	
Salaries and benefits	257,909
Supplies and other	89,084
Allocation of building costs	15,870
	362,863
Building department surplus at December 31, 2016	\$ 40,476

#### NOTE 14 - SEGMENT INFORMATION - ENTERPRISE FUNDS

The government issued bonds and notes payable to finance certain improvements to its sewer system. Because the Sewer Fund, which accounts entirely for the government's sewer activities, is a segment and is reported as a major fund in the fund financial statements, segment disclosures herein are not required.

#### **NOTE 15 - TAX ABATEMENTS**

#### Industrial Facilities Tax (IFT)

The Township entered into property tax abatement agreements with local businesses under the Plant Rehabilitation and Industrial Development Districts Act, (known as the Industrial Facilities Exemption) PA 198 of 1974, as amended, provides a tax incentive to manufacturers to enable renovation and expansion of aging facilities, assist in the building of new facilities, and to promote the establishment of high tech facilities. An Industrial Facilities Tax Exemption (IFT) certificate entitles the facility to exemption from ad valorem real and/or personal property taxes for a term of 1-12 years as determined by the local unit of government. The IFT on new plant and new industrial property is computed at 50% of the taxes levied. The Township can elect to freeze the taxable values for rehabilitation properties. The Township can recoup the taxes abated if the terms of the contract are not met.

For the year ended December 31, 2016, the Township abated property tax revenue for general operations and emergency services totaling \$13,558 under this program. This amount does not include the portion of the Township's IFT captured by the Downtown Development Authority, a component unit, which amounted to \$20,035.

For the year ended December 31, 2016, the Downtown Development Authority abated property tax revenue for general operations totaling \$96,334 under this program. This amount includes the portion of the IFT captured from the Township.

#### Payment In Lieu of Taxes – PILOT

Under the provisions of the State Housing Development Authority Act 346 of 1966, as amended, the Township has agreements with four tax exempt properties in which they pay a service fee in return for supplying public services. The Act applies to multiple unit housing for citizens of low income and the elderly. A taxable value was estimated for each property, and the service fee paid was subtracted from a calculated tax based on those estimates. The total tax abatements for the Township are \$87,332.

There are no significant abatements made by other governments that reduce the Township's tax revenues.

#### NOTE 16 - UPCOMING ACCOUNTING PRONOUNCEMENT

Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, was issued by the GASB in June 2015 and will be effective for the Township's 2018 year end. The Statement requires governments that participate in defined benefit other post-employment benefit (OPEB) plans to report in the statement of net position a net OPEB liability. The net OPEB liability is the difference between the total OPEB liability (the present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries. Statement 75 requires cost-sharing employers to record a liability and expense equal to their proportionate share of the collective net OPEB liability and expense for the cost-sharing plan. The Statement also will improve the comparability and consistency of how governments calculate the OPEB liabilities and expense.

Other receivables	(18,312)	85,464
Prepaid expenses	36,566	(41,961)
Increase (decrease) in liabilities:		
Accounts payable	(42,078)	(167,638)
Accrued liabilities	(10,287)	22,657
Retainage payable	(8,930)	20,056
Total adjustments	2,496,071	2,457,846
Net cash provided by operating activities	\$ 3,712,399	\$ 2,889,163

## STATISTICAL SECTION (UNAUDITED)

### CHARTER TOWNSHIP OF DELHI DESCRIPTION OF STATISTICAL SECTION

This part of Delhi Township's financial statements presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Township's overall financial health.

The statistical section is organized into the following main categories:

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the Township's financial performance and well-being have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the Township's most significant local revenue source, the property tax.

#### **Debt Capacity**

These schedules contain information to help the reader assess the affordability of the Township's current levels of outstanding debt, and the Township's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Township's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the Township's financial report relates to the services the Township provides.

Sources: Unless otherwise noted, the information in these schedules is derived from the Report on the Financial Statements for the relevant year.

#### CHARTER TOWNSHIP OF DELHI NET POSITION BY COMPONENT LAST TEN FISCAL YEARS (ACCRUAL BASIS OF ACCOUNTING)

Delhi Charter Township direct debt	1,314,586	100.00%	 1,314,586
Total direct and overlapping debt			\$ 58,263,101

Source: Municipal Advisory Council of Michigan (MAC)

The MAC obtains the taxable values of properties within the various taxing jurisdictions from the State of Michigan. The percentage applicable to Delhi Township is calculated by dividing the taxable value of Delhi Township taxpayers in that jurisdiction by the total taxable value of the jurisdiction.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the township. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Delhi Charter Township. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
